

PRAYOGA™

Research to Transform Learning

Together, Let's Transform the Way India Learns

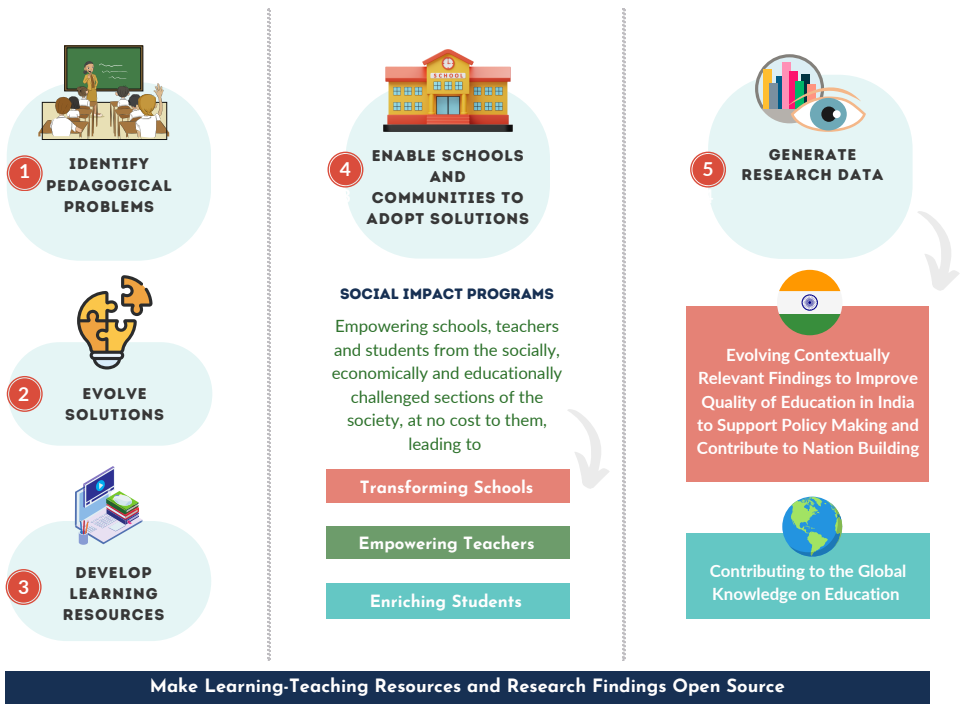

Education is the key to unlocking the true potential of individuals and society.

At Prayoga, our vision is clear -
*to create a transformation in society by enhancing the quality and utility of learning
through dedicated research.*

Prayoga Institute of Education Research is a unique foray into Education Research, striving to innovate and evolve robust, effective, and societally relevant methods and resources for learning and teaching.

Prayoga comprises of a robust and motivated team of education researchers, domain researchers, data science experts, science and mathematics faculty, program management professionals, field academic staff and support staff striving to transform the way science is learnt in India. The intense engagement with rural schools is intended to find systematic and creative solutions to address the challenges in the Indian Education System.

Prayoga seeks to nurture and empower the next generation of researchers for the country's technological and scientific development.

By amalgamating education research and social initiative, Prayoga seeks not only to contribute to fundamental and long-lasting changes in education but also makes a tangible difference to the schools, teachers and students from the disadvantaged sections of the society.

Transforming Schools

The Kriya program enables schools to develop capacities in extending experiential learning of science to all their students.

67	Schools being transformed through Kriya	51	Government Schools	16	Private Schools
-----------	---	-----------	--------------------	-----------	-----------------

Empowering Teachers

The Kriya and Prerana programs orient teachers to an alternative pedagogy through intensive engagements. This approach enables them to facilitate experiential learning in their classrooms.

Teachers empowered through Kriya **210**

Enriching Students

Students are provided with quality learning experiences that encourage the cultivation of high-order thinking skills.

6756	Students reached through Kriya	8	Student Research Publications

Partner with Our Purpose

Prayoga's aim to create a fundamental shift in the education system that cultivates higher-order thinking and meaningful learning is achieved through its purposeful social impact programs and rigorous research.

We are building an organization that will create a lasting impact over the next few decades and remain resonant through time. This requires significant resources, manpower, and infrastructure.

Help us create an enduring legacy. Your support can strengthen our

Social Impact Programs

Transform schools, empower teachers, and enrich students across the country, especially those lacking access to learning resources in rural areas of socio-economically disadvantaged communities.

Research Activities

Domain Research with significant real-world impact and Education Research to engender a paradigm shift in education, taking society towards a sustainable future.

Infrastructure @ Prayoga

The vibrant campus serves as the hub for research and education, sustaining programs and initiatives to serve the nation's needs for decades to come.
